

## Active Health Management Program

**AyushCorp** is an active health management program from Ayushman - leaders in Connected Healthcare, for employees of corporate companies. Connected healthcare requires a Common Platform for connecting Consumers with Doctors, Pathologists and Chemists, building of Electronic Medical Record (EMR) and technology features to support multiple consultation modes with doctors such as In-Clinic, Video or Phone as well as to place order for pathology test or medicine.

**AyushCorp** program includes check-up by a Doctor at company premises, routine pathology tests, review of records by a Consulting Physician and further consultation with a Specialist, wherever necessary and building EMR with all examination details and pathology reports. This program is offered only to employees where organization is willing to provide physical infrastructure for organizing health check-up. Studies have shown up to 45% reduction in hospitalization due to active health management.

### Key Service Features :

- Periodic health check-up by a Doctor at company premises and additional consultation with Specialists
- Routine pathology tests - samples to be collected at company premises. Additional USG at diagnostic lab
- Centralized storage of EMR – access from anywhere anytime
- Group Interactive sessions with Specialists from different disciplines
