

## Active Health Management Program

**AyushDeep** is comprehensive health tracking program for students. It provides an opportunity for parents living away to be aware of health of their children. The program includes physical examination by a Doctor, routine pathology tests, review of records by a Consulting Physician, building an Electronic Medical Record (EMR) with all examination details and pathology reports and access to health parameters for parents / guardian remotely. This program is offered only to students where college is willing to provide physical infrastructure for organizing Health Check-up.

### Key Service Features :

- Complete health check-up by a General Physician at college campus – once a year
- Basic pathology test - samples collected at college campus – once a year
- Review of records by a Consulting Physician with suitable recommendation.
- Centralized storage of EMR – access by Student, Parents / nominated guardian and authorized doctors
- Mail response by the doctor to any query from the Student

### Benefits to Parents :

- ✓ Access to Medical Records of children from anywhere
- ✓ Complimentary subscription to IndiaOnlineHealth - a platform for Connected Healthcare  
(For features please visit [www.Indiaonlinehealth.com](http://www.Indiaonlinehealth.com) )
- ✓ Opportunity to invite their local family doctor for a Video Consultation, if necessary
- ✓ Building of Electronic Medical Record to provide continuity in healthcare forever

### Benefits to College :

- ✓ Easy and effective management of health issues of students
- ✓ Opportunity for diet modification as per needs of the students

**... Always be on top of your children's health ...**
