

Fact sheet

- 1. What is AyushDeep Program :** It is a special offering aimed at providing healthcare at college campus. Students / Colleges subscribe to this service, while parents may view the Electronic Medical Record (EMR) of their children irrespective of their geographical location.
- 2. Who is offering AyushDeep Program :** This program is offered by Ayushman Pvt. Ltd. - leaders in 'Connected Healthcare'. Backbone of **AyushDeep** is Ayushman's secure cloud based platform – '**IndiaOnlineHealth**', that connects Consumers with Doctors, Diagnostic Center and Drug Store seamlessly. EMR of each individual student is completely confidential and can be accessed only by the student himself or by his consulting doctor. Additionally, student may give permission to parents / guardian / institute doctor to view the EMR.
- 3. AyushDeep offers :**
 - Health Check-up at college Campus comprising of:
 - Medical examination by a General Physician
 - Basic Pathology tests
 - Creation / update of Electronic Medical Record with examination details by doctor and pathology reports uploaded by pathologist
 - Recommendation for further investigation / check up by a specialist, if identified. However, consultation with specialists is not covered in the program.
 - Complimentary subscription to **IndiaOnlineHealth**, enabling the student to avail services of all registered doctors, diagnostic labs and chemists.
 - Email queries to doctors seeking advice on specific medical issue.
 - Advice from a Nutritionist with respect to food served in college mess / Canteen and also advice on diet to students who need special attention as identified during the Health Check-up.

Please note **AyushDeep** is a pro-active healthcare program to create base line medical record. **It is not an acute care or hospitalization service.** However, EMR can be provided to the hospital on request by the subscriber.
